

TOKENVIEW

what can i do

What Can I Do is the first track taken from Tokenview's highly anticipated upcoming debut album, **Patience At Sea**. An ambitious tune about the nature of dependence, the single features swirling grand piano, unnerving chord changes and a Keith Moon-esque drum arrangement. The bridge includes a guest lead vocal from Wally De Backer (aka **Gotye**), who is joined by his bandmates Kris and Tim from **The Basics**, resulting in a heavily anthemic lead single which evokes a strong Australian-centric pop sensibility.

Tokenview's adventurous and diverse forthcoming record also features collaborations with Midnight Oil legend **Rob Hirst** and Melbourne songstress (and **triple J Unearthed** Winner), **Megan Washington**. A video for *What Can I Do* has just been completed, written & directed by the acclaimed **Josh Groom** (**Angus & Julia Stone**, **Birds Of Tokyo**), whose clip for Angus & Julia Stone's *Just a Boy* won an IF award, as well as receiving J Award & ARIA nominations.

The outfit have previously released two well received indie EPs and garnered a formidable live reputation that has seen them sell out countless headline shows as well as invited to support the likes of the **Foo Fighters**, **Birds of Tokyo**, **Dappled Cities** and **The Mess Hall**.

•iTunes Single Of The Week - May 2009

"The production on Patience At Sea is the best I've heard on an independent record for a long time."
- Josh Pyke

"Epic." - Drum Media live review

"Tight, loud and bloody entertaining." - Troy Barrett (manager for Dappled Cities, Seabellies)

Patience At Sea
Album due to be released August 2009
Distribution: Inertia | Publicity: Positive Feedback
